Dear Parents,

This letter is a follow up to earlier communication about our process for screening peer pals during this time of school closure. Our strong preference is to screen children face to face using the Brigance Early Childhood III Screener. It is not a tool that allows for a virtual screening, and at this point, we do not have a date when in person screenings might be possible. As we receive guidance that would allow for face-to-face screening in a school, we will communicate that swiftly. Any safety measures recommended by UCPS would be followed.

In the event we are not able to complete screenings through a face-to-face scenario, we will consider utilizing a parent rating scale to fulfill the screening component.

We hope you will "hang in there" with us for a little longer and, we appreciate your patience as we work through next steps.

Please know we will do our best to communicate information as soon as possible.

Wishing you well,

Donna Brown

Preschool Disabilities Coordinator
