# SAFETY DATA SHEET

Issue Date 23-Jun-2011

Revision Date 12-Dec-2012

Version 1

WHEN IN THE PROPERTY OF THE PR

Product Identifier

**Product Name** 

Smart Strip

Other means of Identification

SDS#

DCI-039

Recommended use of the chemical and restrictions on use

Recommended Use

Paint remover.

Details of the supplier of the safety data sheet

Supplier Address Dumond Chemicals, Inc. 83 General Warren Blvd Suite 190 Malvem, PA 19355

Emergency telephone number

Company Phone Number **Emergency Telephone** 

1-609-655-7700

INFOTRAC 1-352-323-3500 (International)

1-800-535-5053 (North America)

PERION HAZAROS IDEKTI FICATION METALEMIA PERION DE LA COMPANION DE LA COMPANIO

Classification

Appearance White viscous liquid

Physical state liquid

Odor Faint aromatic odor

Hazards not otherwise classified (HNOC) May be harmful if swallowed May be harmful in contact with skin Other Information

- · Toxic to aquatic life with long lasting effects
- Toxic to aquatic life

STATE OF THE STOCK OF THE STATE OF THE STATE

Revision Date 12-Dec-2012

Chemical Name	CAS No	Welght-%	Trade Secret
Water	7732-18-5	40-60	*
Benzyl alcohol	100-51-6	30-50	*
Titanium dioxide	13463-67-7	1-5	*

Chemical Additions

Contains 30-50% proprietary ingredients

# ART ALFIRST AIDMEASURES

## First aid measures

Inhalation

Remove to fresh air. Oxygen or artificial respiration if needed. Get medical attention.

Eye contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get

medical attention.

Ingestion

If conscious give 2 glasses of water to dilute. Do NOT induce vomiting. Never give anything

by mouth to an unconscious person. Get medical attention.

**Skin Contact** 

Wash thoroughly with soap and water until no traces of the chemical remain. Remove contaminated clothing and shoes. Get medical attention if irritation develops or persists.

### Most important symptoms and effects, both acute and delayed

Symptoms

May cause skin and eye irritation. May be harmful if absorbed through the skin. Mists and vapors cause irritation of the eyes, mucous membranes, and upper respiratory tract.

#### Indication of any immediate medical attention and special treatment needed

Note to physicians

Treat symptomatically. Individuals with chronic respiratory or ekin diseases may be at risk

from exposure.

# 

Suitable Extinguishing Media

Water epray (fog). Foam. Dry chemical or CO2.

Unsuitable Extinguishing Media Not determined.

Specific hazards arising from the chemical

Decomposition may be hazardous. Vapors may form explosive mixtures with air in confined areas. Sealed containers may rupture when heated. Cool containers exposed to flames with water until well after the fire is out.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# Data Britista de la compania del compania de la compania del compania de la compania del compania de la compania del compania

#### Personal precautions, protective equipment and emergency procedures

Personal precautions

Use personal protective equipment as required.

**Environmental precautions** 

Do not allow into any sewer, on the ground or into any body of water. See Section 12 for additional ecological information.

Page 2/7

DCI-039 - Smart Strip Revision Date 12-Dec-2012

## Methods and material for containment and cleaning up

Methods for containment

Prevent further leakage or spillage if safe to do so, Remove all sources of ignition. Dike spill and prevent spill from entering sewers and waterways. Collect using an inert absorbent

material and place in appropriate containers for disposal.

Methods for cleaning up

Keep in suitable, closed containers for disposal. Wash spill area with plenty of water. Spills and releases may have to be reported to Federal and/or local authorities. See section 15.

# TAXA HANDING AND BIGRAGE ZEWARE BARES AT THE REPORT OF THE PARTY OF TH

## Precautions for safe handling

Advice on safe handling

Use personal protective equipment as required. Avoid contact with skin, eyes or clothing. Protect container from physical damage. Avoid breathing vapors or mists. Remove contaminated clothing and shoes. Wash thoroughly after handling before eating, drinking. smoking, or using toilet facilities. Since empty container retains residue, follow all label warnings even after container is empty.

## Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from oxidizers and incompatible materials.

incompatible materials

strong acids. Bases, Reducing agent. Strong oxidizing agents.

<u> </u>		dust	

#### Appropriate engineering controls

**Engineering Controls** 

For operations where contact can occur, a safety shower and an eye wash facility should be available. Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits.

#### Individual protection measures, such as personal protective equipment

Eye/face protection

Chemical safety goggles/faceshield. Do not wear contact lenses.

Skin and body protection

Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Butyl rubber or other impervious gloves are required.

Respiratory protection

If occupational exposure limits are exceeded, use NIOSH approved respirator with organic vapor cartridges and dust/mist pre-filter. For higher concentrations (greater than 10 times the recommended exposure limit) an approved supplied air respirator (with escape bottle if required) or self-contained breathing apparatus may be required. Selection of respiratory protection depends on the contaminant type, form, and concentration. Select in accordance with OSHA 1910.134 and good industrial hygiene practice.

**General Hygiene Considerations** 

Handle in accordance with good industrial hygiene and safety practice.

Titanium dioxide 13463-67-7	> 10000 mg/kg (Rat)	-	<del></del>

# information on physical, chemical and toxicological effects

**Symptoms** 

May cause skin and eye irritation. May be harmful if absorbed through the skin. Mists and vapors cause irritation of the eyes, mucous membranes, and upper respiratory tract.

# Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity

Titanium dioxide is a possible carcinogen when it appears as a respirable dust.

Chemical Name	ACGIH	IARC	NTP '	OSHA
Titanium dloxide		Group 2B		X
13463-67-7		, i		<u> </u>

Chronic toxicity

Individuals with chronic respiratory or skin diseases may be at risk from exposure.

# Numerical measures of toxicity- Product

Not determined

The following values are calculated based on chapter 3.1 of the GHS document.

ATEmix (oral)

3047 mg/kg

ATEmix (dermal)

5000 mg/kg

ATEmix (Inhalation-ges)

1750 mg/l

ATEmix (inhalation-dust/mlst)

0.1 mg/l
