2. New Business:

\*Details for Open House/Curriculum Night

Weddington ES did not do something similar to this for open house/curriculum night. They had 2 sessions: 9-10, 12-1 for open house.

We liked how STEM Night went.

Maybe make a video for car rider line this summer showing dos and don'ts. There is a possibility of posting this on the website and facebook.

Curriculum Night: Live morning broadcast with Admin giving an announcement regarding things they need to know.

Have the kids have a part in curriculum night. Having this in September. We are regarded to have 4 STEM Nights a year in order to be a STEM school. Piggyback this with PTO so that the parents have more accessibility to be here.

Call curriculum night something else. We could also feed people.

We like the idea of having open house and curriculum night in one night. But figuring it out how to make it work is a bit of a difficulty.

We could have something that goes home with open house information regarding curriculum night.

Starting the curriculum night in 3-5 with a practice EOG passage and questions. K-2 could be Mclass type questions or Math Summatives.

We could break it apart into 2 sessions. The obstacles: parking, the parents who work, and the middle school

Printing a list of rules.

We could have the kids DO something in order to entice them to come.

We like the idea of doing it in the morning. Splitting it into K-2, 3-5.

Eat in the classroom, served breakfast. Then shown a STEM activity. Start with 3-5 first then going to K-2. We could do in the same day or the different week.

Bring their ipads, phones so that Powerschool could be logged in, Find the Bus.

PTO Question Computes do we still need them? Yes, the county is giving hopefully each grade level a cart of computers.
