Agenda:

Administration (Mrs. Benson):

- School Improvement Plan- work in teams to look at SIP (that has been slightly adjusted)

Notes:

- School Improvement Plan
Work in partners to work on SIP Goals, each partnership has been assigned a goal to work on and discuss. Partners presented changes made to each goal and the whole group discussed any additional changes which were needed.
- Technology
Each representative should discuss with grade level/department a "Technology Wish List": three items, that grade level feels the school needs, then share that list with Mrs. Benson
- Stakeholder Input
Each representative should remind grade level/department that Site Base is an opportunity for staff to participate in the decision making for the school.
- Cultural Awareness
Representatives should discuss the possibility of a Career and Culture day in April before spring break. This would provide K-2 students with an opportunity to learn about a variety of cultures, customs, traditions; 3-5 students would learn about careers and the workforce. This would take approximately a half day away from instruction. Please discuss with grade levels regarding the possibility of holding Career and Culture day this year. Please direct any questions you may have to Kelly Marks.

- Yearbook

Customized Yearbook would come to \$20, a standard yearbook is \$10. Specials have brainstormed a way to still integrate artwork/customization into a standard yearbook. Representatives should discuss with grade level and provide feedback to Mrs. Benson.

Next Meeting: October 16
