**Title 1 status update:**

Socioeconomic status is the driving force. We are “very close”. Additional funds may be available next year. May reduce the class sizes. School Improvement Plan will have a different template and process (needs assessment). Conversations/visits with other Title 1 schools to determine the most successful use of the resources.

April 2019 starts the timeline for planning and implementation if we qualify for assistance

**Ongoing efforts:**

Continue to work to support growth in all subgroups - EC, ESL, etc.

**Safety** - Send concerns to Mr. Spencer so that they can be addressed in the cluster safety committee as necessary.

Ongoing concerns: Propped classroom doors (students or staff), Unlocked doors because auxiliary staff does not relock the door.

To reduce interruptions, have support staff walk students to the classroom and let them in instead of an interrupting knock.

Security system is working with most parents supportive.

2 lockdown drills per year. We will have one soon.
