CCEP (Construction Equity Plan)

- Draft Updated
- Hybrid Sun Valley High School proposed (1,700 student capacity)
- New Sun Valley High to be combined with ATC (Academy Technology Center)
- The estimated cost for this new build is \$102 million
- The proposal includes bulldozing the old school and selling the road frontage for debt-down repay
- This plan will now be presented to the Board of Education – March 1, 2016
- The alternative plan includes an estimated cost of \$24 million in renovations to the old school

Safety and Security

- School will review lockdown protocol.
- Administration and security will remain persistent in checking gate and fencing.
- Teachers will consistently be present during hall duty and designated duty positions.
- A part-time security monitor was hired to secure the parking lot, gates, and halls.
