Student Life

Congratulations CATA Students:

Medical Sciences students participated in the state HOSA Leadership Conference this past week in the area of Biomedical Debate. This was our first HOSA competition in several years and our students **Vanika Mehta, Palak Desai, Harshini Janapaty, Aminata Diagne, Jana McManus, Grant Lindenberg, Charvi Kavadekar, and Lasya Kandukuri** represented CATA! Thank you to Ms. Turner and Ms. Black for helping prepare our students.

Pre-Engineering Project: One of the machining projects assigned for our Advanced Studies/Metals course is a machinist's hammer. It requires milling, turning, threading, tapping, knurling, drilling...just about all the fundamental machining processes. A few of the students have reached completion. Attached is a picture of one. As you can see, the handle is knurled. The hammer faces are brass on one side and acetyl on the other. The hammer body and handle are 6061-T6 aluminum. What always impresses the teacher is to realize that in January, this student didn't even know what an engine lathe was.

Pre-Engineering and Transportation Collaboration: Our Advanced Studies Engineering students helped our Transportation Academy Students by building an adapter plate to connect an electric motor to a transmission for an electric car project. Teamwork between two academies.

LifeSmarts National Competition: Christopher Walker, George Kappas, Avery Pardue and Emily O'Connor participated in the **LifeSmarts National Championship**. They completed the online state qualifying competition and the national qualifier, and did well enough to compete in the 2021 national championship online. They placed 2nd out of 33 in two rounds of a virtual national competition with other high schools and competed in the top 4 semi-finals and finished in second place. They each won \$1000 in scholarship money and \$50 Amazon gift cards! Lifesmarts provides real-world education for students who learn about core consumer topics and develop critical thinking skills. Participants focus on five key topic areas: consumer rights and responsibilities, the environment, health and safety, personal finance, and technology.

CATA Studio Session Concert: CATA Chorus and MPRA Academy present CATA Studio Sessions Mix of choral arrangements, cover songs, and original songs written by CATA students! Please click [here](#) to watch.

Advanced Placement Absence Permission Form - for each student to fill out. In the past we would give students an actual document to sign, but we are living in a virtual world these days, as you know. Our students are not required to attend classes on the day of their assigned AP Exam (this is no different than any other school year) provided they have communicated with their teachers and parent/guardian). We will review their grades and if they should be in class their google form will not be approved. If granted permission the student will be coded as "field trip" and not counted absent on the day of their AP Exam. Please have your students fill out the google form by **Thursday, April 29th at 5:00 pm**. They must fill out a form for each exam they are taking.
