CATA Guidance Department

A high school guidance department can help your student with a LOT during high school—counseling during a problem/or stress, college planning, career/college questions, interview skills, problem solving with classes/teachers, friendship/social issues. Counselors also help with scheduling and what courses to take. Counselors are available to answer parent questions as well.

Please see the list of counselors by academy:
<u>Ashley Lawson</u>: Medical Science, Teacher Prep
(Seniors only), Transportation & Guidance Department Chairperson

<u>Kendall Cameron</u>: Pre-Engineering and Performing Arts (theatre & dance)

<u>Mini D'Rozario</u>: Information Systems (CyberSecurity, Computer Engineering, Software & Game Design) and Music Production & Recording Arts.

Viewing Student's Grades

- Parents can view student grades through the Parent Portal. Contact the school office if you have never obtained information on how to set up an account. If you had an account last year, the same account still works.
- Students can view their grades by using the my.ncedcloud.org on their chromebook (3rd iconreads "HB-SIS Student-LEA-900"). The old Parent Portal is ONLY for parents, the student logins will no longer work on that link.
- A note about Canvas grades. Canvas is an instructional platform that is new this year. Teachers are using this to store resources, assignments, and at times—assessments. Teachers can score items on the Canvas platform and students can see grades for INDIVIDUAL assignments there. Students MUST remember that grades in Canvas only include Canvas-based assignments. Most teachers are grading more than what is in Canvas. The official grades are in accessed through the my.ncedcloud.org in that "HB-SIS Student-LEA-900" link. Averages of Canvas grades are NOT official grades. If students have questions they should ask their teacher or an administrator.

Environmental Science and Drafting Integration

Students of Ms. Kopchick and Mr. Recher integrated a lesson on sustainability this week. Students were given topics on LEED, sustainable mining, sustainable wastewater management and sustainable waste management to research. They presented their findings by designing a poster and writing a position paper on why their topic was sustainable. The posters were created using handwritten engineering style lettering. This activity

gave 9th and 10th grade students the opportunity to work together and view how engineering design and environmental sustainability are closely related topics. A global component was also added into the activity. Students had to locate where their topic was being implemented outside the United States. Lauren Barnette, a student of environmental science,

commented "I thought it was very interesting working with another class on our project. Our group definitely had its struggles, since we didn't all know each other, but everyone brought a different skill to the groups. In the end, everything worked out well. I also thought it was cool that a topic we are learning about in science class is something that is also important to engineering. It helped me to see how something we learn about and see on paper, gets put into use in the real world".

Attendance Information for Parents and Students

Students with more than 7 absences in a course can fail the class due to Absences alone, regardless of their grade average in the class.

Attendance at school is Priority. It is so important to be present in order to learn and to gain opportunities for mastering coursework. This is also a very important life lesson for our children to learn—in life we have expectations of going to work and working to the best of our ability, and this good life habit starts with attendance at school.

- To ensure maximum student attendance we will be contacting students and parents when students reach 3, 6, and 8 absences. The numbers 3,6, and 8 are for Total absences, both excused and unexcused.
- According to UCPS attendance policy students should not miss more than 7 classes in each class. The goal is to not miss ANY school, but if a student has a valid reason, such as an illness or other excused absence, they can have up to 7 absences and still pass the class.
- It is important that excuse notes be written and turned into the office within 3 days after an absence. After the three days, then the absences are recorded as unexcused permanently.
- At each absence threshold (3,6,8) CATA staff will make the determination if the student needs to begin the recovery process to make up absences and notify parents and students on how to make up time missed from school. Recovery should be done dur-ing the semester and in the two week time span given or the student will not be allowed to recover the absences at a later date. There are UCPS limits on how many classes can be recovered. Recovery will be held on Tuesdays and Thursdays after school with Ms. Riley, or with the student's individual teacher. Students are expected to work on content during recovery time. This plan is in place so that your student makes up content close to the date it was delivered in class. CATA feels this is most effective.

Central Academy of Technology and Arts Graduation Information Class of 2016

Dear Class of 2016,

We are so very proud of each and every one of you. This spring semester we hope that you will enjoy your time with your friends and teachers while maintaining your school work. In just a short time you will no longer be a "high school student" and will be looked at as an adult. You have worked hard, we have worked hard, and your parents have worked hard to prepare you for this challenge. You are each a reflection of your family and your school and, more importantly, you are a reflection of your core values. We hope that you will have fond memories of CATA and of the people here. We certainly have wonderful memories of each one of you.

The rest of this letter contains important information you need to know in a very factual format. We ask that you review the entire letter with your family. We are excited about the remainder of your Senior Year and want to be sure you know the expectations that are set. Feel free to come and ask any questions you may have.

Graduating from high school is dependent upon earning the number and type of credits needed to earn a diploma.

Participating in the graduation ceremony is a privilege, one that your family will truly value as they have spent a lot of time supporting you in your academic studies. Please take time to ensure that you are eligible to graduate by earning the credits needed. Please take time to ensure that you are able to participate in the graduation ceremony by making good choices for the remainder of your senior year, and by making sure that you have taken care of all financial responsibilities. Specifically, students must pay all fees owed to the school in order to be permitted to participate in graduation ceremonies. This includes fees such as (but not limited to) - cafeteria, media center, textbook, transcript, technology, property fees. Any unpaid fee owed to the school or school system must be paid by Wednesday June 8th to be allowed to participate in a graduation ceremony. Multiple invoices have been sent this year. If you have an outstanding balance we strongly urge you to meet with your grade level administrator now to set up a payment plan.

An official transcript in a sealed envelope will be in the packet. It is YOUR responsibility to mail it to your college. It is REQUIRED by your college for admission.
 Please make plans to meet your families by walking around the outside of the coliseum toward the front.

There are plenty of places to take pictures outside. Since the University will have to reset after our graduation for the next events, guests and graduates will not be able to stay inside the coliseum for pictures.
