## 2017 AIG Spring Screening Information

The AIG department will begin its annual spring screening process in February. Each student currently enrolled in our schools, in grades 3-7, is automatically included in the spring screening process. Teachers at each of our schools review current student data to evaluate each child's potential candidacy for AIG Services for the following school year. Students are assessed based on their current grades and testing data. Students who have met two of our qualifying criteria for AIG services may be referred for further testing. Please note that not all students are tested during this process. Only the students who fit within our criteria are evaluated further.

The spring screening process begins in February and continues until the end of the school year. Students are re-evaluated as soon as new data is available regarding grades and End of Grade results. Students may be referred to summer testing to complete their screening process. Parents will be notified in writing if a student needs further testing. Please note that students are only assessed for the screening process once a year.

Please visit our website for more information concerning frequently asked questions and/or Placement Matrix for Parents regarding qualifying criteria for AIG services:
