

Career-Technical Student Organizations

A career-technical student organization (CTSO) is an integral part of each program area's curriculum. Any student enrolled in a career-technical course is eligible for membership in the CTSO associated with that program. The CTSOs are:

Agricultural Education

Future Farmers of America (FFA)

Business & Information Technology Education

Future Business Leaders of America (FBLA)

Family and Consumer Sciences Education

Family, Career and Community Leaders of America (FCCLA)

Health Occupations Education

Health Occupations Students of America (HOSA)

Marketing Education

Distributive Education Clubs of America (DECA)

CTSOs develop character, citizenship, technical, leadership, and teamwork skills essential for students who are preparing for the workforce and further education. They enhance students' civic awareness and provide opportunities for developing social competencies and wholesome attitudes about living and working.

National Honor Society

NHS is a student organization that recognizes student achievement in career-technical education.

Mission

To honor student achievement and leadership, promote educational excellence, and enhance career opportunities.

Purposes

- To reward excellence in career-technical education.
- To develop self-esteem and pride, and encourage students to reach for higher levels of achievement.
- To promote values of honesty, responsibility, teamwork, initiative, productivity, leadership, & citizenship.

Administrative Staff

Stephanie McManus - Principal

Brian Gray - Assistant Principal
Christopher Horne - Assistant Principal
Eldridge Moore III - Assistant Principal

Career and Technical Education

Mission and Purpose

The mission of Career-Technical Education (CTE) is to help empower students for effective participation in an international economy as world-class workers and citizens. CTE fulfills this mission by:

1. Preparing students for postsecondary education in career-technical fields and lifelong learning.
2. Preparing students for initial and continued employment.
3. Assisting students in making educational and career decisions.
4. Applying and reinforcing related learning from other disciplines.
5. Assisting students in developing decision-making, communication, problem-solving, leadership, and citizenship skills.
6. Preparing students to make informed consumer decisions and apply practical life skills.
7. Making appropriate provisions for students with special needs to succeed in career-technical education programs.

Program Areas

Sun Valley High School offers competency-based courses in five program areas, with each area having school-based, work-based, or community-based learning opportunities.

1. **Agriculture Education**
2. **Business & Information Technology Education**
3. **Family and Consumer Sciences Education**
4. **Health Science Education**
5. **Marketing Education**
6. **Trade and Industrial Education**

Combined with other academic offerings, career-technical education assists all enrollees with career goals and high school graduation requirements. All programs in career-technical education are designed to contribute to the broad educational achievement of students.
