Advancement Via Individual Determination

What is AVID?

This IS Marshville Elementary School!

This is AVID; We Are AVID

By teaching and reinforcing academic behaviors and higher-level thinking at a young age, AVID Elementary teachers at Marshville create a ripple effect in later grades. Marshville elementary students develop the academic habits they will need to be successful in middle school, high school, and college, in an age-appropriate and challenging way. Children learn about organization, study skills, communication, and self-advocacy. AVID Elementary students at Marshville take structured notes and answer and ask high-level questions that go beyond routine answers.

The strong college-going culture in an AVID Elementary school, like Marshville, encourages students to think about their college and career plans. Schools cover their walls with college pennants and banners, and educators speak about their college experiences. College and careers are no longer foreign concepts, and teachers provide the academic foundation students need to be on a path for college and career success. AVID schools, like Marshville Elementary, closes the opportunity gap before it begins.

Proven Achievement: Lifelong Advantage

- 93% of AVID students complete four year college entrance requirements.
- 90% of AVID students who apply are accepted into four year colleges.
- 85% of AVID students persist into the second year of college.

DREAMS CAN COME TRUE!
