

Student Support Services for the Piedmont

Dear Parents/Guardians,

With the end of the school year quickly approaching, we would like to inform you that the School Social Workers and the Behavioral Health Therapist will be available throughout the entire summer.

Therapeutic services will continue with all current students and schedules will be arranged with the therapist. Parents who are interested in therapeutic services for students can contact the therapist directly.

The School Social Workers will be available for student check-ins, assist with community resources, and weekly food deliveries.

If you have any questions or concerns please feel free to contact us.

**HAPPY
SUMMER**

Find Your Happy Place.
