Nature Club

Does your child spend way too much time watching TV or playing electronics and not enough time outside? Sadly, a large percentage of our children today are suffering from "nature-deficit disorder" due to not spending enough quality time outside. In the book, *Last Child in the Woods: Saving Our Children From Nature-Deficit Disorder* by Richard Louv, research concludes that direct exposure to nature is essential for healthy childhood development. In order to promote more outdoor

experiences for your child, we are now offering a Nature Club that will do just that. Nature walks, problem solving in the woods, creating crafts out of nature, and experimenting with animal habitats are just a few of the fun and exciting things that we will do in our Nature Club. **BE PREPARED...your child MAY GET DIRTY!**

The cost to participate in this club is \$150 per child per 6-week session. This will include all materials needed for each session.
