K – 12 Parent/Guardian Attestation

Parents/Guardians are required to review the information below and agree that if any of the answers to questions 1-3 are “yes”, the student will not use school bus transportation services.

Child's First Name: _____ Child's Last Name: _____

Parent/Guardian First Name: _____ Parent/Guardian Last Name: _____

1. **Has your child had close contact (within 6 feet for at least 15 minutes) in the last 14 days with someone diagnosed with Covid-19, or has any health department or health care provider been in contact with you and advised you to selfquarantine?**

Yes ___ Your child should **NOT** be at school. The child can return 14 days after the last time he or she has close contact with someone with COVID-1, or as listed below.

No ___ Your child can be at school if experiencing no symptoms.

2. **Does your child have ANY of the following symptoms?**

Fever ___

Chills ___

Shortness of breath or difficulty breathing ___

New cough ___

New loss of taste or smell ___

If a child has any of these symptoms they should stay home, stay away from other people, and you should contact their healthcare provider

3. **Since they were last in school and or transported by yellow school bus, has your child been diagnosed with Covid-19?**

Yes ___

If a child is diagnosed with Covid-19 based on a test, their symptoms, or does not get a Covid-19 test but has symptoms, they should **NOT** be at school and should stay home until they meet the criteria below. No ___

A child can return to school and or continue riding the school bus when a family member can ensure they can answer YES to All three questions below.

___ Has it been at least 10 days since the child first had symptoms?

___ Has it been at least 3 days since the child had a fever (without using fever reducing medicine)?

___ Has it been at least 3 days since the child's symptoms have improved including cough and shortness of breath?

If a child has had a negative Covid-19 test, they can return to school and utilize transportation once there is no fever without the use of fever reducing medicines and they have felt well for 24 hours.

If a child has been diagnosed with Covid-19 but does not have any symptoms they should remain out of school until 10 days have passed since the date of their first positive Covid-19 diagnostic test, assuming they have not subsequently developed symptoms since the positive Covid-19 test.

If a child has been determined to have been in close contact with someone diagnosed with Covid-19 they should remain out of school for 14 days since the last known date of contact unless they test positive. In which case, criteria above would apply. They must complete the full 14 day quarantine even if they test negative.

I attest that I have read, understand and agree with the information above as a condition of using bus transportation:

____/____/____ : ____ AM / PM Parent/Guardian Signature: _____

Month Day Year Time

Growing Possibilities.
