- **Approve Minutes from August: Actionable**
 - It was moved for the minutes from the September 2014 SBMT meeting to be approved. The motion was passed unanimously.
- **CCEP (Community Construction Equity Plan): Information**
 - Mr. Porter, Mr. Whitley, Mrs. Selby, Mr. Mangum, Tim Rape, Dr. Plue, and Mr. Ollis developed a list of CCEP Priorities. They have been categorized in the following areas: athletics, remodeling, safety and security, technology upgrades. This list will be finalized in preparation of the January deadline.
- **Ideal School Size: Actionable**
 - UCPS wants to establish a set pattern of ideal school size for elementary, middle, and high schools. Starting points for these population sizes are the following: elementary (1000), middle school (1600), and high school (2200).
 - Research shows that students of lower socio-economic status tend to perform better in smaller schools. However, school size is not as influential as class size. Larger schools are more cost-effective and tend to offer more AP level courses.
 - After discussion with the FHHS SBMT, the team has decided that the starting points are ideal for the typical schools but poverty/socio-economics needs to be factored into the process.
- **Budget: Need Input**
 - No final numbers yet since free and reduced lunch numbers are not completed. The 20-day student enrollment is 955.
- **The next meeting will be held on November 12, 2014 at 4 pm.**
