# Grade descriptors

This document is a compilation of descriptions (grade descriptors) of each grade for each group of subjects in the IB diploma programme. Grade descriptors consist of characteristics of performance at each grade. The descriptors apply to groups of subjects but substantial similarity exists across sets of group grade descriptors.

Senior examiners use these grade descriptors when determining grade boundaries for examination papers and coursework components. For each grade, qualities of a typical performance are given. However the work of few candidates will be consistently characterised by a single grade descriptor, most work will display some of the characteristics of more than one grade. Senior examiners therefore review the work of many candidates to determine a grade boundary – the lowest mark at which characteristics of a grade are consistently shown in candidate work – allowing for some compensation across the different aspects.

The grade descriptors are intended to help teachers explain the academic requirements of the IB diploma programme to students, undertake formative assessment, report progress and prepare predicted grades.
