This was a special meeting called for the month of April to review the applications submitted by various clubs for the new award this year; Community Service Award

Mr. Basden explained the guidelines for the award to the committee. Now that the applications have been submitted the Site Base Committee must review the application and make a decision on which club will receive the award.

The following clubs submitted an application: Interact, FCCLA, and National Art Honor Society.

Mr. Basden developed a scoring sheet and made copies of each of the applications. Each member of the group read each application and scored the application based on the criteria given. Once the scoring process was completed we ranked our scores from one to three and Interact received a one from each member present resulting in a unanimous win.
