

Johnson & Wales University has been a strong supporter and advocate of Career and Technical Student Organizations (CTSO). Our long-term commitment to these organizations and their students has encouraged us to review how best to support them in affording a JWU education.

For this reason, we are excited to inform you that we have restructured and expanded our scholarship awarding to create more access to scholarships for more students who apply to JWU. **All students who are involved in CTSOs and share their organization affiliation on their application to JWU will automatically receive \$2,000, no matter their level of involvement. Each of these students will have the ability to apply for an additional \$3,000 based upon their involvement and achievement within their organization.**

For many years, JWU has collaborated with CTSO conferences, judged competitions, and presented workshops – often on the local, state, and national level. We value this partnership and look forward to building on it in the future.

If you have any questions about our scholarships or JWU, please feel free to contact me. We look forward to supporting your students as they participate in the college search experience.

Sincerely,

**Meredith Twombly**
