Coronavirus Update: March 11, 2020

As information is made available about Coronavirus, UCPS leaders are constantly re-evaluating decisions regarding student and staff travel.

As of today, March 11, 2020, all UCPS-sponsored field trips are allowed within Union County for students and staff professional development. All out-of-county UCPS-sponsored field trips and staff professional development remain cancelled, until further notice.

Schools travelling to non-UCPS locations in Union County must check with the venue to determine if the event is still occurring as planned. UCPS leaders will continue to monitor requests for all planned field trips until the end of the school year.

Decisions will continue to be made as daily discussions are held with the Union County Health Department and we will adhere to guidance from local, state and federal agencies.
