Becky Bossert
David Boos

Mid year review of school improvement plan:

We discussed the 2018-2019 school improvement plan, goal by goal. We discussed what progress we have made with each.

Goal 1- Spoke about how we are progressing with Professional Development related to and implementation of student centered learning, differentiating instruction in the classroom, and digital learning (IXL, Myon, Dreambox).

Goal 2- Each grade level elaborated on where they were with their college/career readiness plans outlined. We are progressing in all areas:

- K-2 Local government follow up – Community helper visits, 2nd grade market place
- 3rd - Town of Stallings- Mock Government and Box City with the Town of Indian Trail
- 4th - college field trip in April- had to be switched due to weather
- 5th grade - BizTown in March. 5th grade is adding NASCAR
- Whole school career day event in in the planning stages for late Winter/Early Spring
- All events are on the calendar.

Goal 3- We are progressing with academic goals and strategies:

- Integrate OG Literacy training into word study, writing and small group components; goal is to have every K-2 teacher trained this summer. OG training for additional staff is being researched.
- We are continuing with the LLI Program (comprehension intervention)
- Differentiation focus is evident in classroom walk-throughs.
- Additional PD opportunities are being researched for the coming school year in addition to funding for these trainings.

New Business:

Grades-grades need to be all in on the last day of the grading period, so a certain due date needs to be set. More to come on this.

Next Meeting Date: February 27, 2019
