SACS is now moving to an Advanced Ed online accreditation. We will look at this with your teams. Lisa will email us the reports we need to complete as a team. We are in stage 2 now. SIT team and teachers will complete the diagnostic. This is the year we will revisit our mission.

Dates: Complete diagnostic by January 26th, then review the strategic plan.

20 schools will be chosen randomly that will have formal and informal interviews. This is the week (April 17th) that no field trips can happen as we have to be prepared in case we are chosen to be interviewed.

Copies of the student, parent and county surveys were passed out for the SIT team to review.
